Dear Mr. Weisburg,

I don't know if you will remember me, it has been so long since I wrote you when I published my Bibliography in Oct 1968.

The reason I have had to drop everything is that both my wife & I have been very ill since then and she died last Feb 12th. I am just getting on my feet again and taking up where I left off.

I have had a second printing made of my Bibliography and ~~and~~ am busy compiling an addendum supplement to bring it up to date.

I note in one of the indexes that you are publishing a new book titled "Post Mortem" & it said no price was given. Mr. Alan Hale asked me if I had heard of a book you were publishing. If it is ready or not, tell me the price so I can order a copy. Write me the details as per page 3 on items in each entry so I can get it in my addendum.

I would also like to know the missing details on your books as per entries 66 and 69. I would also like to buy these two editions.

I got some literature from (Mr. Sherman H. Skolnick. He was on the Alan Hale Show. His Court Suit got sidetracked (over)

He said there was another court suit against the Archures
to release the autopsy ^{films} but the plaintiff was slapped down
Have you any details on it? What date is the 5 year period
elapsed so they will let you see them? I have grave doubts if
"The Man With the Brush" has not ^{been} active with them.

Sholnick mentions that some "critics" of the Comm-
ission have approached him to not prove that the "Report"
was a fake - a Fraud and Fibre and he declared Vord,
for they wanted it kept alive so they could keep writing
books on it. Do you know anything about this?

Did Penn Jones ever send you a copy (electrostatic) of
"Red Roses from Texas"? I sent it to Jones the end of Oct 68
to read & pass on to you and Mrs Meagher ect to read.

Can you give me any descriptive data on the Bell & Howell
Camera that Zofruder used? I am trying to buy one of the same
Model and outside of a document in Photographic White work
that I believe describes it as "Executive D" I haven't any
information on it. I wrote Bell & Howell twice but
they have never answered - (B & H's agents say there is no record
of an Executive D model)

I am ~~the~~ ordering the "Index of Basic Source Materials" from
the Archures for \$37.00 and am asking them for a description of
the model no, year, ect to enable me to buy one.

Did you ever run down any information to where President
Kennedy's undershirt + 1/8 inch thick leather faced aluminium
shoulder brace went to? To the same place the Center glass
screen (not the front Windscreen) went, I will lay 6 to 4 on.

as ever your friend W.C. Thompson.
